Nursery re-opens at 8:30am for those children in Grasshopper and Caterpillar groups

A message from Mrs Jackson

Dear families,

As the school year draws to a close, I have been reflecting on the wonderful year we have had together. The children have had the chance to experience so many wonderful activities and seeing them grow in confidence and develop their skills and knowledge has been a pleasure. We are incredibly proud of the progress that our children have made. None of this is possible without our team of dedicated staff and I would like to thank them for their commitment and hard work this year.

We are sad to see our Pre-School children leave but we know that they are all well prepared for their move to Primary School and they will leave us with a love of learning.

We look forward to seeing our Pre-Foundation children again in September and welcoming our new families.

Thank you for your support throughout the year,
Mrs Jackson

Other information

Our Pre-School children (Bees, Ladybirds & Dragonflies groups) will be bringing home their reports next week. Please speak to Mrs Jackson if there is anything you are unsure of or would like to discuss.

Parents of our Pre-Foundation children (Grasshopper & Caterpillar groups) will have the opportunity to have a parents meeting with their Key Person to find out how they have been getting on in Nursery. Please book a time with Miss Barrow in the office.

We still have some places available for 3 year olds in September. Please encourage family or friends who might be interested in a place to contact us.

Learning

Over the past few weeks, the children have continued learning about different places in the world and thinking about journeys to those places.

Last week, the children had a visit from ZooLab where they were able to meet some different creatures. There was a giant snail, a giant millipede, a stick insect, a giant cockroach and a tarantula. So many of the children were brave enough to handle the creatures!

Attendance

Attendance letters will be sent out to Pre-Foundation children and our Pre-School children will have their attendance included in their report.

There will be stickers and certificates for those children and families who have had 100% attendance this term and rewards for those who have had 100% attendance this year.

**MOMENTS
MATTER,
ATTENDANCE
COUNTS.**
