

Toys

The vocabulary we're learning...

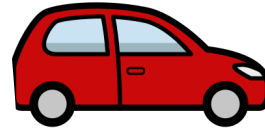

brick

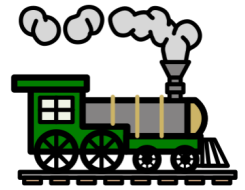

doll

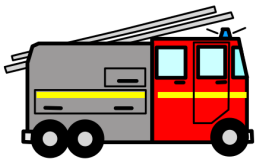

teddy

car

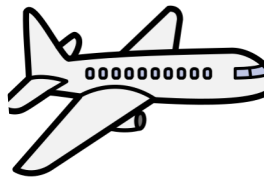

train

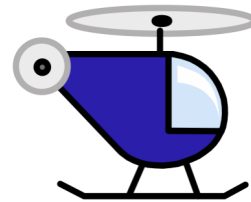

fire engine

boat

aeroplane

helicopter

road

Ideas for home...

- Build towers with bricks at home. Talk about how many bricks you can see. Play Ready, Steady, Go games – build a tower and take it in turns to push it over.
- Sing songs about the vehicles you can see. Use actions and encouragement to sing the song (to the tune of Wheels on the Bus): ***The car on the road goes beep, beep, beep... The train on the track goes choo, choo, choo... The fire engine siren goes nee, naw...***
- Talk about transport as you walk around your local neighbourhood. What can you see?
- Model simple play with your child. For example, sit down with your child and pretend to feed a teddy some food. Make comments about what you are doing, e.g. ***'I'm giving teddy some food. I think cereal is yummy'.***
- Play i-spy with transport sounds. ***I-spy with my little eye, something that makes the sound nee-naw, nee-naw...***

Our core books...

- Read stories to your child every day. This will help boost their language development. You can listen to these stories on YouTube if you don't have a copy at home.
